

Subject Index

- Acute renal failure 204
Adrenal surgery 386
 α -adrenergic receptor 341
Age distribution 414
Aortitis syndrome 446
Artificial blood 109
Ascending infection 273
Autoimmunity 255
- Benign prostatic hypertrophy 414
Bilateral ureterosigmoidostomy 420
Biopsy 305
Bladder carcinoma 437
Bladder Neck 28, 46
Bladder neck hypertrophy (Marion's disease) 129
Bladder neck sclerosis 129
Bladder pressure 103
Bladder substitution 273
Bladder tumors 255, 326
Bladder tumors in children 420
Bougie à boule 455
- Calculus 228
Calicea systole and diastole 282
Caliceal and pyramidal urodynamics 282
Carcinoembryonic antigens 162
Carcinoma of the prostate 305, 402
Caryopycnotic index 245
Chronic prostatitis-prostatopathy 129
Chronic pyelonephritis 297
Chronic renal failure 357
Chronic renal insufficiency 204
Cine/pressure/flow/cystourethrography 77
Classification of incontinence 3
Collagenous tissue 350
Colposuspension 34
Conduction velocity 100
Congenital bulbular urethral stenosis 129
Congenital hydronephrosis 350
Continency by ileum invagination 273
- Continent intra-abdominal ileum pouch 273
Continent urine reservoir 273
Creation of normal micturition control 192
Cryosurgery of the prostate 414
Cushing's syndrome 386
Cystectomy 420
Cystometry 9, 16
Cystourethrography 46
Cystourethrostomy 54
Cytological control 245
- Decreased urethral resistance 34
Definition of incontinence 3
Descent of urinary bladder 34
Detrusor instability 9
Diagnosis of renal tuberculosis 297
Differential diagnosis 321
Distal urethral stenosis 455
Distensibility 28
Disturbances of urodynamics 297
Double-layer needle cannula 204
- Ejaculation 218, 341
Electromyography 92, 369
Electronic nappy 103
Electrotherapy of the bladder 192
Embryonal cell carcinoma of the testes 162
Enuresis 85, 455
Exchange, transfused rat 109
Experimental 173
Exponential model 16
External urethral sphincter 72
- Fallopian tube 173
Female incontinence 34
 α -Fetoprotein 162
- Gambro perfusion apparatus 362
Glyoxylic acid 465
Gynecological diseases 297

- Haematuria 326
- Handicaps, extrinsic 3
- , intrinsic 3
- Hemangioma 237
- Hemodialysis 204
- Hepatoma 162
- Hormonal therapy 245
- Hydronephrosis 397
- Hyperglycemic condition 437
- Hyperoxaluria 465
- Hypertension 386
- Hypertension in Japanese 446
- Hypogastric nerve 218
- Hypomagnesemia 313
- Hysterectomy 381

- Ileum conduit 273
- Incontinence 33
- Incontinence after total prostatectomy 54
- Incontinence of faeces 3
- Incontinence of urine 3
- Incontinence, double 3
- , physical 3
- , cerebral (mental) 3
- , locomotor 3
- Internal urethral orifice 218, 341
- Internal urethrotomy 266
- Intramural bladder receptors 192
- Ionic and water kidney content 117
- Irradiation reaction 326
- Irrigating fluid 27

- Kidney 321, 369
- Kidney functions 109
- Kidney preservation 145, 362
- Kidney transplantation 357
- Koch's test 321

- Laboratory diagnosis 321
- LDH in perfusate 362
- Lioresal 63
- , (γ -aminobutyric-acid) therapy 63
- Low estrogen level 455
- Low temperature perfusion 117
- Lymph node metastases 402
- Lymphocele 433

- Lymphography 402

- Megalureter – hydronephrosis syndrome 129
- Metastasis 305
- Microsurgery 145
- Micturition control 192
- Micturition cystourethrography 34
- Mixed mesodermal tumor 420

- Na⁺ transport 109
- Needle 305
- Nephroureterolithiasis 297
- Nervus pudendus 100
- Neurogenic bladder 72, 85, 92, 100, 192
- Neurogenic bladder disease 75
- Neurogenic bladder dysfunction 33, 63, 181
- Neurogenic component in incontinence 77
- Nodule 305

- 12 o'clock position 75
- Operative risk category 414
- Organic impotence 211
- Oxalic acid 465

- Pacemaker 369
- Paraplegics and urinary late effects 181
- Paraplegics with urinary complications 181
- Partial colpocleisis 381
- Pathogenesis of renal tuberculosis 297
- Pathological changes of paraplegics' urinary tract 181
- Pelvis 369
- Pelviureteral junction 350
- Percutaneous catheterization 204
- Perfusion flow rate 362
- Perineal 305
- Peripheral neurogenic lesion 99
- Peripyramidal muscle 282
- Polyacrylamide disk 162
- Posture change 9
- Pregnancy 9, 297
- Primary aldosteronism 386
- Primary and secondary reflux 273
- Prostatic cancer 245
- Prostatic obstruction 28

- Rat 465
Recurrent urinary tract infection 455
Renal autotransplantation 145
Renal calculus 465
Renal ischemia 145
Renal preservation 117
Renal transplant magnesium wasting 313
Renal tuberculosis 297, 321
Renal vein 332
Renovascular hypertension 446
Residual urine 33
Retroaortic left renal vein 332
Rhabdomyosarcoma 420
- Sacral roots 100
Sarcoma botryoides 420
Selective sacral denervation 85
Seminoma 162
Silicone penile prosthesis 211
SLDH 437
SLDH-V 437
Smooth muscle 369
Spina bifida 103
Spinal cord lesion 63
Splanchnic nerve 218
Standard values 29
Stepwise cystometry 16
Stone composition 228
Stone recurrence 228
Stress incontinence 34, 46
Striated perineal muscles 92
Substitute 173
Succinimide 465
Supravesical urine diversion 273
Surgical repair for pielouretal joint
 stricture 397
Suspension defect 46
Sympatholytic treatment 33
- Takayasu's syndrome 446
Technical details 29
Total prostatectomy 54
Transperineal 305
Transplantation complication 433
Transurethral resection of the prostate 414
Transurethral sphincterotomy 75
Transvaginal operation 381
Tuberculin 321
Tumor staging 402
Tumors of testis 237
Tunica albuginea testis 237
- Ureter 173, 369
Ureteral complications 33
Ureteropyelostomy 397
Urethral pressure profile 27, 29
Urethral resistance 28
Urethral stricture 266
Urethral valves 129
Urethrometry 9
Urge to void 192
Urinary incontinence 99
Urinary manometry 72
Urinary stress incontinence 9
Urine 465
Urine loss 103
Urine reabsorption 273
Urodynamic evaluation 34
Uroflowmeter 34
- Vegetative efferentation 192
Vesicoureteral reflux 357, 455
Vesicovaginal fistula 381
Visceral handicaps 3
Visco-elasticity 16
Vitality test 362
Voiding cystourethrogram 455
