

Subject Index

- Acid phosphatase 191
- Adrenergic blockade 6
- Adreno-renal-ureteral coverings 179
- Alarm 70
- Aneurysmectomy 368
- Anterior and posterior leaves 179
- Anti-tumor cell-mediated immunity 444, 459
- Arrhythmia 489
- Average flow rate 410

- Bacterial resistance 171
- Bacteriuria 501
- Base plate 145
- Benign and malignant neoplasms 302
- Biological engineering 115
- Bladder 20, 70
 - , base insufficiency 33
 - , carcinoma 343
 - -neck suspension 33
 - -wall replacement 211
 - – resection 211
 - wash-out test 249
- 'Blocking' factor (antibody) 459
- Blood loss 410
 - pressure 165

- Catheter 38
- Cellular responsiveness 374, 383, 444, 459
- Chemical effect 297
- Cine/pressure/flow/cystourethrography 100
- Clearance 137
- Closure pressure 3
 - , vesicovaginal fistula 290
- Complications, transplanted ureter 272
- Congenital neurogenic bladder 93
- Conservative treatment 93
- Contact hypothesis 343
- Continence 3
- Contralateral ovarian cyst 297
- Cryosurgery 183, 383

- Cystometry 49

- Detrusor activity 100
- Dihydrotestosterone 265
- Dissections 33
- Dura ribbons 417
- Dynamic functional length of urethra 13
- Dysfunction of bladder neck or bladder neck dyssynergia 78

- Ectopic kidney 470
- Elastic constriction 321
- Electrical stimulation 115, 124, 129, 134
- Electromicturition 108
- Electromyography 230
- Electrostimulation 111
- EMG of pelvic floor muscles in neurogenic bladder dysfunctions 60
- Enuresis 70, 87
- Estrogenic cycle and urethra pressure profile 13
- Etiology 343
- Exactness of the method 217
- Experimental medicine 165
- Extraperistaltic events 476
- Extrinsic bladder pressure 20
 - urethral pressure 20

- Familiar occurrence 239
- Flow rate 20
- Functional electrical stimulation 23

- Genealogical tree analysis 239
- α_2 -Globulin 374, 383
- Gynaecological fistulas 401

- Horseshoe kidney 239
- Human dura 211, 290
 - prostate 302
- Hydrodynamics of micturition 115
- Hypercalciuria 198

- Immunofluorescence 501
- Incontinence 70
- Indwelling catheter 183
- Inhibition of leucocyte migration 444
- Intraabdominal pressure 3
- Intraurethral pressure 3, 6, 108
- Intravesical pressure 3, 20, 108
- Intrinsic bladder pressure 44
- Irritable bladders 60

- Kidney 137
 - preservation 428

- LDH isoenzyme distribution and degree of histological differentiation of prostatic cancer 302
- Leucocyte adherence inhibition 459
- Ligamentous apparatus 33
- Liver function 205
- Localization of urinary infection 249
- Lymphocytic blastogenesis 374, 383
- Lyophilized pig bladder 211

- Matrix substance 355
- Maximum flow rate 410
- Measurement 38
- Meatal elasticity 321
 - stenosis 321
- Mechanical compression 297
- Mucosubstance 355
- Multiple sclerosis 230

- Nephrotomies 417
- Nephrotoxic antibiotics 171
- Neurogenic bladder 49, 230, 332

- Oestrogen 383
- One-stage repair 315
- Outflow resistance 100
- Ovarian vein 297

- Pacemaker 476, 489
- Partial nephrectomy 137
- Penile hypospadias without chordee 135
- Pentothal 489
- Peritoneal flap insertion 297
- Peyronie's disease 290

- Pharmacology 165
- Phosphatase 191
- ζ -Potential 355
- Pressure measurements 44
 - response curve 13
- Prognosis 205
- Prolactin 265
- Propagation characteristics 476
- Prostate 265
 - adenoma 191
 - hypertrophy 191
 - massage 191
- Prostatic cancer 374, 383, 444, 459
 - carcinoma 205
 - diseases 183
- Pyelocaliceal diverticulum 349

- Radical prostatectomy 145
- Radioisotope renography 137
- α -Receptors 13
- Recording 70
- Recurrent renal calculi 261
- Reflex stimulation 115
- Reflexes 49, 111
- Removal of catheter 410
- Renal angioplasty 368
 - anomaly 470
 - circulation 428
 - ischemia 428
 - pelvis 489
 - transplant 198
 - transplantation 272
 - vein renin 368
- Renogram 368
- Replacement, bladder wall 290
 - , renal capsule 290
- Representation of genital fistulas 401
- Residual urine 183, 410
- RNA and DNA 265

- Scar formation 417
- Sedimentation rate 355
- Serum acid phosphatase 191
- Site-frequency distribution 343
- Solitary kidney 470
- Special anastomosis 145
- Sphincter 38, 230

- Sphincterometry 49, 165
Sphincterotomy 410
Spinal cord injury 49
– shock 49
Spinal cord paralysis 332
Statistical analyses, urinary stones 217
 α -Stimulating drugs 13
Stimulator 332
Stress incontinence 33, 100
Subcapsular pyelolithotomy 261
Surgical-anatomical study of adreno-renal-
ureteral sheath 179
Suspension of urethra in stress incontinence
290
Synergism 265
- Therapy 383
Total urethral resistance 410
Transposition of aberrant vessels 290
Transurethral resection 383
- Upwards-backwards fixation 33
Ureteral peristalsis 476, 489
Uretero-diverticular anastomosis 349
Ureterolysis 297
- Urethra 165
– pressure profile 13
Urethral model 20
– stenosis 87
Urinary continence 145
– drop spectrometer 321
– incontinence 23, 111, 115, 124, 129, 134
– infection 249, 501
– – after surgery for reflux 249
– stone 355
– tract infection 171
Urine stream 321
Urodynamic investigation 93, 145
Urodynamics 87
– of bladder neck 78
- Vaginal, rectal surface electrodes 60
Vesicoureteral reflux 249
Voiding cystourethrography 78
- Wick urethrocystocolporectography 401
- ^{133}Xe washout technique 368
X-Ray diffraction 217
