

Subject Index

- Accuracy 184
Acid phosphatase 350
After contraction 15
Amylase 11
Androgen metabolism 266
Angiography 356
Antibiotic concentration 356
Auto-antibodies 374
- Balkan nephropathy 393
Biorhythmics 105
Bladder 26, 403, 410
– carcinoma 233, 387
– neck incision 260
– – obstruction 260
– – synergy 176
Bleeding 147
Bromocriptine 266
Butyl-2-cyanoacrylate 356
- Calcium antagonists 421
– oxalate nephrolithiasis 105
Calculi 26
Cancer 1
Carcinoembryonic antigen 387
Chemical analysis 26
Child's bladder 15
Clinical epidemiology 36
– response 339
Complications 147
Constricted pre-glomerular vessels 237
Contractility 410
Controlled micturition 199
Coughing 403
Cross-reacting with progestins 330
Cryoprostectomy 339
Cryosurgery 339
Cryotherapy 339
Cystinuria 369
Cystometry 451
- Depressor nerve 153
Detrusor sphincter dyssynergia 176
Differences in short- and long-term
 obstruction 237
- Early diagnosis 350
Ectopic hormone production 190
Electrostimulation 199
Embolization 356
Endemic 26
Enuresis 176
Epididymectomy 374
Excessive desobstructive loss of Na and
 H₂O 237
- Flexible fibroscope 76
Flow rate 184
Free water clearance 430
Functional bladder outlet obstruction 260
- Genetic 62
Glucocorticoid receptors 330
Graft rejection 291
- Hill's model 410
Histology 356
Hormone resistance 266
– response and resistance 95
Human renal cell carcinoma 302, 312, 321,
 330
Hydrodynamics 114
Hydrogen ion 363
Hydronephrosis 430
- Immunocytes 1
Immunofluorescence 55, 374
Immunoglobulins 62
Immunological enhancement 291
Impact geometry 184
Induction by oestrogens 312

- Infiltration 1
- Infravesical obstruction treatment 260
- Interstitial nephritis 393
- Intraoperative control of pyelon 76
- Intrarenal prostaglandins 430
- Isoelectric microfocussing 95
- Jet velocity 184
- Kidney stone recurrency 36
- Lipid droplets 46
- Lymphatic system 1
- Mechanical bladder outlet obstruction 260
- Metabolic disease 369
- Metallic immunology 126
- Methods of measurement 451
- Methylmethacrylate 356
- Methysergide 55
- Microprobe technique 81
- Micturition 114
- Model 410
- Motor urge incontinence 421
- Myogenic control 137
- Nervous control 137
- Normal patterns 15
- Obstructive reduced reabsorption 237
- Oxalate 26, 440
- Persistent vascular reduction 237
- Pharmacokinetics 440
- Phenacetin nephropathy 393
- Phosphate phases 81
- Polyacrylamide gel electrophoresis 95
- Pressoreceptor stimulation 153
- Pressure/flow studies 15
 - transducer 451
- Progesterin receptors 302, 312, 321
- Prognosis 387
- Prolactin 266
- Prostate 1
 - and seminal fluid 11
- Prostatic cancer 339
 - carcinoma 266, 350
- Purse-string suture 147
- Rapid injection technique 440
- Receptor purification 95
- Renal cadmium toxicology 126
 - copper toxicology 126
 - elimination 440
 - hypertension 46
 - pelvis lithiasis 393
 - prostaglandins 46
 - stones 363
- Renomedullary interstitial cells 46
- Reserpine 55
- Retrograde urethrography 161
- Retroperitoneal fibrosis 55
- Scanning electron microscopy 81
- Screening method 369
 - test 114
- Selective inhibition 95
- Sensitization 291
- Serum proteins 339
- Simultaneous urethrocytometry 421
- Somatic fibers (selective division) 199
- Spermatozoa 374
- Spleen antigen 291
- Staghorn calculi 26
- Steroid-binding inhibitors 321
- Stone formation risk 105
- Stress 105
 - incontinence 167
- Structures 81
- Substitution according to vein pressure and serum electrolytes 237
- Technical device 184
- Tissue adhesive 167
- Trace elements 81
- Transvesical prostatectomy 147
- TSH, prolactin, LH, FSH 190
- T₃, T₄ 190
- Tuberous sclerosis 62

- Unstable bladder 176
- Upper urinary tract tumours 393
- Ureteral activity 153
 - obstruction 430
 - transport capacity 137
- Ureter functions 137
 - peristalsis 137
- Urethral pressure 403
 - – profile 161
 - stricture 161
 - syndrome 70
- Urethritis 70
- Urethrovesicopexy 167
- Urgency 70
- Uric acid 233
- Urinary 410
 - acidification 363
 - incontinence 403
- Urine parameter 105
- Urodynamic investigation 114
- Urodynamics 15, 176, 184
- Uroflowmeter 114
- Uroflowmetry 114, 184
- Urogenital tumors 190
- Urolithiasis 26
- Uroliths 81
- Vasectomy 374
- Ventral sacral root 199
- Xanthine oxidase 233
- Xenografting 291
