

Subject Index

- Acute phase reactants 128
- Adenine phosphoribosyltransferase 274
- Alanine-aminopeptidase 178
- Alkaline phosphatase 178
- Alloplastic spermatocoele 368
- Alpha-adrenergic receptor 208
- Analysis of urinary crystals 281
- Androphilic protein 79
- Angiotensin II antagonist 15
- Anterior colporrhaphy 315
- Anticholinergic drugs 67
- Apoptotic bodies 88
- Auto-antibodies 59
- Autonomic drugs 208
- Autoradiography 88

- Bacteria 335
- Bacterial antigen 335
- Bladder cancer 152
 - carcinoma 217, 373
 - - (T₃N₁₋₂M₀₋₁) 128
 - physiology 23

- Ca-containing urinary calculi 325
- Calcium oxalate stone 199, 265
- Carcinoma of the prostate 10
- Castration 88
- Cell loss 88
 - -mediated cytotoxicity 46
 - proliferation 88
- Citrate excretion 325
- Congenital disease 386
- Control 292
 - of tumor growth 128
- Cryptorchism 59
- Crystalluria 245
- CT scan 341

- Detrusor 225
 - pressure recordings 23
- Diagnosis 380

- Diagnostic 346
 - value 353
- Diazoxide 100
- Diet therapy 1
- Dihydrotestosterone 79
- 2,8-Dihydroxyadenine 274
- DNCB skin test 171

- Effector cells 46
- Elasticity 145
- Electronic data recording 217
- Electron microscopy 335
- Electrophoretic mobility test 217
- Epidemiology 346
- Etiology 380
- Experimental acute renal failure 15
 - prostatitis 73
- Exponential model 145

- Female mastomys natalensis 73
- Fibrin fibrinogen degradation products 10
- Fibrinolysis 10
- First-degree relatives 245
 - human delivery 368
- Functional urethral length 315

- Glucagon 100
- Guinea pig 225

- Healthy subjects 67
- Histochemistry of the human bladder cancer 152
- Human 335
- Hydronephrosis 178
- Hydroxyproline 128
- Hypercalciuria 245

- Idiopathic bladder instability 124
- Image analysis device 178
- Immunofluorescence 59
- Immunohistochemistry 335
- Indomethacin 124

- Infrasonic vibration 166
 Interstitial nephropathy 178
 Intrapelvic infusion 307
 Intrarenal prostaglandins 158
 Intravesical instillation of adramycin 292
 In vitro measurements 145
 Ionic gradient 256
 Ischemia 178
 Isolated 225
 – human minor calyx 208
 Irreversible inhibition of ODC 128
- Kelâmi-Affeld prosthesis 368
 Kidney 128, 256
 – calculi 1
- Lithogenous urinary parameters 199
 Litholytic urinary parameters 265
 Lymphatic drainage 341
- Male 380
 – sterility 35
 Malnutrition 1
 Mechanical properties 145
 Method of combining optical with scanning electron
 microscopy 281
 Micturition analysis 23
 – in children 353
 β_2 -Microglobulin 128
 Microscopic cytophotometry 298
 Model 145
 Monocyte chemotaxis 171
 Morphometry 35
 Muscarinic receptor 208
- Neuromuscular 225
 Neoplastic enzyme defects 152
 Nephrolithiasis 390
 Nesbit procedure 386
 Nonopaque calculi 274
 nu/nu Mouse 110, 137
- Oxalates 1
 – excretion 325
- Pacemaker 235, 256
 Passive properties 145
 Pathogenesis 335
 Power spectrum 166
 Penile deviation 386
- Percyra suspension 315
 Pharmacology 67
 Plasma renin activity 158
 Postoperative bleeding 10
 Pressure/flow diagrams 353
 Prostate 88, 194
 Prostatic carcinoma 46
 – diseases 79
 Puerperium 53
 Purine metabolism 274
 PVP-iodine 322
- R 1881 79
 R 5020 79
 Rabbit 235
 Radiography of the kidney 390
 Radiological contrast material 322
 Rat 225
 Recovery stadium 248
 Renal cell carcinoma 110, 137
 – hemodynamics 15
 – ischemia 15
 – pelvic electromyogram 298
 – pressure 307
 – pelvis 235
 – pressure 100
 – stones 245
 – stone localization 390
 – surgery 390
 – vein obstruction 178
 Renin-angiotensin 15
 Renovascular hypertension 158
 Retrograde urography 322
 Retroperitoneal lymphadenectomy 341
 Risk of stone formation 199, 265
 – recurrent incontinence 315
- Segments of ureter 145
 Signet-ring cell adenocarcinoma 373
 Simultaneous urethrocystometry 53
 Smooth muscle 256
 Specific red cell adherence test 171
 Spectral analysis 166
 Spermatozoa 59
 Spinal cord lesion 248
 Spontaneous contraction 208
 Spouses 245
 Stone dissolution 325
 Stress 199, 265
 – incontinence 53

- Subvesical obstructions 353
- Superficial bladder cancer 171
- Technical modifications 217
- Testicular tumor 341
- Testosterone 88
- Therapy 346
- Thin sections of urinary calculus 281
- Thionine stain 298
- Time series 166
- Tissue culture 194
- Transitional cell carcinoma of the bladder 292
- Transplantation 110
- Treatment 380
- Tumour diagnosis 217
- Tumorimmunology 46
- Tumour-specific antigens 217
- Urachal carcinoma 373
- Ureter 145, 225
- Ureteral activity 100
 - electromyogram 307
 - obstruction 100
- Urethral closure pressure 315
 - diverticula 380
 - flow 23
- Urinary cytology 298
- Urodynamics 67
 - in micturition 23
 - investigation 248, 353
 - of healthy females 23
- Urol® 225
- Urolithiasis 274
- Vas deferens 225
 - - aplasia 368
- Vasoseminal vesiculography 35
- Vinblastine sulfate 137
- Viscoelasticity 145
- Xanthogranulomatous pyelonephritis 335
