

Subject Index

- Abdominal perineal resection 358
Abnormal vaginal introitus 91
A, B, O(H) isoantigens 150
Acetylcholine 100
Acid-base status 332
Acquired penile deviation 352
Actinomycin D 187
Acute and chronic effects 225
– epididymitis 283
– renal failure 246
– retention of urine 114
 α -Adrenergic blockade 312
– blockers 114
 β_1 - and β_2 -Adrenergic drugs 154
 α -Adrenoceptor(s) 100
– stimulation 298
Adrenocorticotrophic hormone 1
Aldosterone 40
Alloplastic ureteral replacement 95
Anticancer agent 246
Autonomic drugs 100
Autophotography 352
Autotransplantation 21
- Bacillus Calmette-Guérin 321
Balloon dilatation catheter 225
Baralgin® 84
Benign prostatic hypertrophy 241
– ureteral tumor 336
Bifid ureter 116
Bilateral testicular germ cell tumor 361
Bladder 5
– cancer 105, 125, 232
– tumor 150, 257
Blind ureter 116
 α -Blocking 207
Blood pressure 225
Bowel anastomosis 73
- Calcium 1, 68
– oxalate 36
Calculi 36
Carbenicillin 345
Carbon fiber electrode 217
Chorioepithelioma 187
Chronic proliferative periorchitis 314
Chylous ascites 58
Cis-diamminedichloroplatinum 246
- Cisplatin 73
Clitoral hypertrophy 91
Computed tomography 250
Computerized tomography 178
Concomitant malignancies 121
Conservative surgery 336
Contraction 84
Cortisol 1
Crystalluria 36, 68, 147
Cyclic AMP 308
- Dehydration 25
Detrusor bladder function 217
– instability 312
Diagnosis 250
Dibenyline 241
Dietary sodium 40
Diuretic stimulus 170
DMO-method 332
- Embolization 236
Emeprium bromide 318
Endorphins 175
Endoscopy 355
Estriol 211
Estrogen 5, 303
Experimental ureter stenosis 225
External sphincter zone 327
Extracorporeal shock-wave lithotripsy 193
- Feedback control 272
Female bladder neck dysfunction 207
– pseudohermaphroditism 91
– rats 303
– urethral cancer 123
Fertility 222
Fiberscope 355
Fibrinogen degradation products 13
Fibroma 314
Fibrous pseudotumor 314
Fistula repair 292
Foreign body 184
Frequency 318
Frozen section 336
Furosemide 25, 52
- Gamma-camera 170
Genitourinary tract anomalies 345
- Glucagon 165
Guinea pig ureter 308
- Hemipelvectomy 280
Hemodialysis 243
Hormone therapy 321
Human 5
– ureter 84
Hydronephrosis 170
Hydrourteronephrosis 170
Hypertension 40
Hypotonicity 170
- Immune complexes 232
Immunological parameters 257
– reaction 257
Immunoperoxidase 9
Incontinence 280
Indomethacin 25
Infarction 187
Infravesical obstruction 91, 312
Inguinovaginal fascial sling procedure 339
Inhibitors of crystallization 159
Insulin 165
Internal urethrotomy 270
Intracellular pH 332
Intraperitoneal administration 246
Intrascrotal swelling 314
In vivo electromyogram 16
Isolated dog ureter 100
Isoproterenol 308
- Japanese 32
- Kidney 187, 193
– function 193
– transplantation 243
- Lithiasis 159
Long-term follow-up 257
Lower urinary tract 175
Lymphangiography 178
- Macromolecules 68, 147
Male infertility 189
Malignant urological tumors 13
Megaureter 143
Metaplasia of the bladder epithelium 303

- Metastasizing renal carcinoma (M_1 , N_{0-4}) 110
- Metastatic penile cancer 125
- Methotrexate 187
- Microvascular surgery 21
- Multiple metastases 46
- Naloxone 175
- Natural killer cells 236, 321
- Nephrectomy 46
- 4 years 49
- Nephrectomy-dependent survival time 100
- Nephrotoxicity 246
- Neurogenic bladder 217
- Neuropathic bladder 105
- New syndrome 352
- Nocturia 318
- Non-Hodgkin lymphoma 121
- Norfenefrine (Nevadral Retard®) 298
- Nutrition 32
- Obstruction 170
- Orchidopexy 21
- Pacemaker 154
- PAH clearance 40
- Palliative tumor nephrectomy 110
- Paratesticular tumors 314
- Parathyroid hormone 1
- Partial obstruction 80
- Pathological grade and stage 150
- Pediatric urology 116
- Pelvic efference 272
- lymph nodes 178
- Penile cancer 125
- Penis stopper 280
- Peritoneovenous shunt 58
- Phallic urethra 91
- Phenoxybenzamine 241
- Phenylpropanolamine 211
- Pheochromocytoma 250
- Piperacillin 345
- Postmenopausal females 211
- Potassium-sodium exchange 52
- Pressures at perfusion 80
- Primary aldosteronism 40, 264
- hyperparathyroidism 1
- Progesterone 5
- Prostate 222, 318
- massage 189
- Prostate-specific antigen 9
- Prostatic acid phosphatase 189
- adenomectomy 243
 - carcinoma 121, 178, 321
 - metastasis, origin 9
 - obstruction 114
 - plateau pressure 241
- Protein and calcium ingestion 32
- Pseudotumor 314
- Psoas bladder hitch 143
- Pycloureteroscope 355
- Radical orchidectomy 314
- Receptors 5
- Rectourethral fistula 292
- Refined carbohydrates 165
- Reflux 143
- Rejection 49
- Relaxation 84
- Renal allograft 49
- carcinoma 236
 - cell carcinoma 46
 - function 264
 - histology 264
 - pelvic pacemaker 16
 - – pressure 80
 - stone disease 32
- Renin 40
- Renogram 170
- Retroperitoneal lymphadenectomy 58
- Rhythmic activity 272
- Rupture transplantation 49
- Secretion 222
- Sex-dependent survival time 100
- Silicone-Dacron prosthesis 95
- Smooth muscle 84
- Solitary metastasis 46
- Specific red cell adherence test 150
- Spermatogenesis 21
- Spinal cord injured patients 280
- Spontaneous contractions 100
- maturation 361
- Stress 159
- urinary incontinence 298
- Struvite calculi 303
- Suprapubic prostatic adenomectomy 283
- Surface electrode 217
- Surgery for metastasis 46
- Survival time dependent on tumor grade 100
- Teflon paste 280
- Testicular tumours 58
- Theophylline 308
- Transcoccygeal approach 292
- Transurethral dilatation 225
- Transurethral resection 318
- sphincteroresection 286
- Tumor markers 13
- Tunica vaginalis testis 314
- Unusual clinical manifestation 336
- Upper urinary tract 355
- Uremia 332
- Ureter stones 193
- Ureteral laceration 143
- peristalsis 154
 - reimplantation 143
 - stricture 143
- Ureterorenoscope 355
- Urethra 5, 184
- Urethral manipulation 352
- obstruction 241
 - pressure profile 199
 - – tomography 199
 - resistance 327
 - sphincteric insufficiency 211
 - stricture 270
- Urethrometrogram 327
- Urgency 318
- Uric acid 159
- – and calcium oxalate stones 159
- Urinary bladder 61, 250, 272
- electrolyte 40
 - fistula 358
 - incontinence 211
 - kallikrein 40, 52
 - prostaglandin E 25, 52
 - stress incontinence 339
 - tract infection 243, 303, 345
- Urination of traumatic tetraplegia 286
- Urine 189
- Urodynamics 29
- Urolithiasis 1, 165
- Uromucoids 147
- Uroprotective Mesna 61
- Urothelial proliferation 61
- Urotoxic cyclophosphamide 61
- Vaginal urethra 91
- Vasectomy 283
- Vasopressin 25
- Ventral penile deviation 352
- Vesical electromyogram 217
- Vesicoureteral reflux 29
- Voiding 327
- Whole urine 68
- Wound healing 73
- Wound-breaking strength 73
- Younger patient 336
