

Subject Index

- Actinomycosis 179
- Adenosis 137
- Adenylate cyclase activity 146
- Adrenal glands 222
 - incidentaloma 171
- Adrenergic receptors 201
- Age difference 201
- Angiofollicular lymph node hyperplasia 171
- Angiography 206
- Antisperm antibodies 154
- Arteriovenous shunt, surgical 227

- Biomechanics 185
- Bladder 185
 - cancer 130
 - function 94
 - replacement 94
 - rupture 121

- cAMP 191
 - content 146
- Candida albicans* 163
 - antigen 163
 - *tropicalis* 163
- Candiduria patients 163
- CAND-TEC™ 163
- Castleman's disease 171
- Cavernosal venous leakage 33
- Cavernosography 33, 48
 - and cavernosometry 9
- Cavernosometry 48
- cGMP 191
- Complications 94
 - urologic 99
- Computerized tomography 206
- Continent urinary pouch stone 114
- Corpus cavernosum 29
- Cystometry, fast-filling 185

- Deep dorsal vein ligation 40
 - – resection 24
- Diagnosis and surgical management 48
- Dialysis 206
- Dobutamine 146
- Dorsal venous leakage 19
- Downstaging 141

- Ectopic ureter 181
- Ejaculation 110
- Electrosurgery 215
- Endourology 215

- Epididymis 181
- Erectile dysfunction 9, 40
 - failure 24
- Erection 29
- ESWL in situ 167

- Fertility 154

- Genitourinary tract 179
- Giant lymph node hyperplasia 171

- HLA-DR+ monocytes 69
 - T lymphocytes 69
- Hyperechoic renal tumor 175

- Ileal conduit 215
 - – stone 114
- Immune monitoring 69
- Impotence 19, 29, 63, 227
- Induction flow 13
- Infertility 218
- Infusion cavernosometry 33
- Intracavernosal pressure 9
- Intrarenal gas formation 211
- Isoprenaline 196

- Kidney 119
 - neoplasm 175
 - transplantation 69, 90, 99

- Lactobacillus casei* 125
- Local recurrence 141
- Locally advanced prostatic carcinoma 141
- Lung neoplasms 222

- Metastasis 222
- Microsurgery 227
- Microwave irradiation 104
- Morphological alterations 56
- Muscarinic receptors 201

- New operative concept 56
- Noninvasive ESWL 167
- Nucleolar organizer regions 137

- Organic impotence 48

- Pacemaker for ureteral peristalsis 146
- Papaverine 196
 - effect 13
- Pathology 123
- Pathophysiology 179

Penile diseases 123
 – haemodynamics 63
 – neoplasms 224
 – vein dissection and ligation 48
 – venous ligation surgery 33
 Penis 29, 123, 224
 Perineal venous leakage 19
 Plasma hormone 158
 Postoperative complications 227
 Priapism 227
 Problems in evaluation 13
 Prophylaxis, bladder tumor recurrence 125
 Prostate, rabbit 201
 Prostatic cancer 137
 Pyelonephritis 163

 Rabbit 104
 Radical prostatectomy 141
 ‘Radiological’ leakage 13
 Rat urinary bladder 151
 Recurrence of bladder tumor 125
 Reflux 76
 Rejection 69
 Renal artery embolisation 211
 – cell carcinoma 206, 211
 – dysplasia 181
 – pelvis, rabbit 146
 – transplantation 76, 94
 Rhinosporidiosis 224

 Secondary pyeloureterostomy 90
 Sedoanalgesia 167
 Seminal parameters 158
 – plasma 218
 – transferrin 158
 – vesicle 110
 Sepsis 69
 Serum laminin 130

 Spongiosolysis 40
 Stenosis 215
 Stent 119
 Stimulation index 104
 Superficial bladder cancer 125
 Surgical treatment of venous leakage 19

 Terbutaline 146
 Testicular dysplasia 154
 Time of pressure decrease 13
 Torsion of the testis 154
 Transferrin 218
 Treatment, surgical and endourologic 99

 Ultrasonography 110, 175, 206
 Ureter necrosis 90
 – obstruction 119
 Ureteric rejection 76
 – stenosis 76
 – stones 167
 Urethra 179, 191
 Urinary bladder 191
 – carcinoma 104
 – rat 196
 – fistula 76
 – tract infection 163
 – reconstruction 76
 Urologic complications 76

 Vasoactive intestinal polypeptide 151
 Vena cava inferior 222
 Veno-occlusive dysfunction 9, 24
 – erectile dysfunction 48
 Venous leakage 19, 40, 56
 – surgery 63
 Viscoelastic properties 185
 VX-2 carcinoma 104
