International Symposium on Lasers in Urology

Zurich, March 4–6, 1999

It is a great pleasure for us to invite you to participate in the International Symposium on Lasers in Urology. We have chosen the beautiful city of Zurich, situated in the heart of Europe and surrounded by the Swiss Alps, to hold our symposium.

The symposium will cover various topics of laser surgery (BPH, stricture disease, endopyeloplasty, stone fragmentation, PDD and PDT) and endoscopic developments in urology, basic science and clinical applications with live operations and interactive discussions.

We look very much forward to meeting you next March in Switzerland.

Dr. Patrice Jichlinski	Dr. Franz Schmidlin	Dr. Tullio Sulser
Department of Urology	Department of Urology	Department of Urology
University Hospital	University Hospital	University Hospital
