Erratum

In the article by Alidjanov JF, Abdufattaev UA, Makhsudov SA, Pilatz A, Akilov FA, Naber KG and Wagenlehner FM, entitled 'New self-reporting questionnaire to assess urinary tract infections and differential diagnosis: Acute Cystitis Symptom Score' [Urol Int 2014;92:230–236, DOI: 10.1159/000356177], the following errors need to be corrected:

1. In the section Study Population: Characteristics of Patients and Controls, in lines 13/14, it should read 'questionnaire part B for further monitoring'.
2. Table 3 has a few calculation errors and needs to be replaced as follows:

Table 3. Differences in scores between first and subsequent visits (n = 63)

Scores gained in different scales of the ACSS	First visit (mean score)	Follow-up visit (mean score)	Mean difference	Wilcoxon signed-rank test[a]
'Typical' subcale	11.21	2.08	–9.13	–975.5
'Differential' subcale	2.17	0.82[b]	–1.35[b]	–540.5
'QoL' subcale	5.79	1.27	–4.52	–798.0

[a] All differences are statistically significant at $p < 0.0001$. [b] Based on the sum of scores of 61 cases with non-missing values.

3. In the Conclusions section, in the 5th line, the number has to be corrected to '286'.
